

3. *La Besurta*

RENCLLUSA REFUGE AND IBONS (or PADERNA IBONS)

1 hour

Follow the well-traced track that sets off from the *Hospital de Benasque*. This will take you to the *Rencllusa* refuge in 35 minutes. From there take the track that crosses the Maladeta torrent through a wooden bridge. Go uphill on the right of the *Alba* torrent (the last one on the right of all that go up to the *Rencllusa*). After 55 minutes you will get to a prairie where the torrent creates some curves. This happens because the first *ibón* is about to become a prairie. If you jump to the left, you will find the *Rencllusa ibón* (2,270 m. high), from where you will surely appreciate the magnificent views.
