

Resident Researchers Program

Goals

Incorporate leading researchers to the CCBPP by means of active temporary research stays.

Types

The program considers to types of Resident researchers:

- Long term resident scientists
Mínimum 2 months/year, for a period of 1-3 years.
- Visiting researchers
Stays of 1-3 months.

Evaluation

Applications will be evaluated every three months by an external committee.
All positive evaluations will be hold for three years.

Agreements between CCBPP and resident researchers

The contract will be signed according to the following terms:

- The researcher will agree to make his/her research at CCBPP.
- The researcher can make use of the affiliation at CCBPP.
- The researcher must show that he has a proper medical insurance.
- Travel expenses will not be covered by CCBPP.
- The researcher can split his stay at CCBPP in as many shorter periods as possible.
- The CCBPP will provide working space and full secretariat facilities.
- The researcher can use his/her affiliation to the CCBPP to apply for research grants.
The CCBPP will manage research grants with a 20% overhead.

Contingences

Failure to comply with the terms of the agreement by one of the parties will result in its split.
The CCBPP reserves the right to terminate an agreement with a scientist.
