'FORAU' DE 'AIGUALLUT'
40 minutes

The departure point is the end of the asphalt trail at *La Besurta* camping area.

Follow a well-marked track along the bottom of the valley. After 20 minutes you will get to the *Pllau d'Aiguallut*, a large prairie that ends abruptly at the *Forau d'Aiguallut*, which you will reach in half an hour.

At *Aiguallut* the water that comes down from the *Aneto* glaciars and the *Barrancs* valley, pours down in an abyss (the *Forau*) and reappears at the *Val d'Aran*, birth place of the Garona river, which disembogues near the city of Burdeos, in the Atlantic Ocean.
