ERISTE TO ANCILES THROUGH THE CONQUES TRACK

40 minutes

The departure point is the town of *Eriste*. Take the main road to *Benasque* but cross immediately to the right (near the lower end of the dam) the bridge over the *Ésera* river (to the left you go straight to the town of *Anciles*). You will find three forks, always take the tracks to the left till you get to the houses at the *Conques*. On their left you will find the *Gardeta* Fountain. The views of the valley are really beautiful from this spot.

Take the track next to the fountain to the left and you will get to *Anciles*. After a crossroad turn right, and after about 7 minutes (next to a house) leave the main track and take a narrower one on the right of the houses. After a while you will get to a wider track, which will take you to Anciles if you turn right and to Eriste if you turn left.
