IBONES DE VALLIBIERNA (LITTLE LAKES OF VALLIBIERNA)

1 h. 30 min. (to the top)

Same route as in *Ibón de Llosás*. Once in the *Plleta de Llosás*, follow the red and white marks. After approx. 46 minutes, cross the *Vallibierna* ravine. Follow it on its right side and after 1 hour you will get to the lower end of the *Ibón de Vallibierna* (2,440 m. high). Circumvent it on its left bank. 15 minutes later you will get to the *Ibón alto* (upper little lake), which has another small *ibón* next to it.

If you feel like it, you can climb the left slope of the *ibón* to the hill that separates the *ibones* of *Vallibierna* and *Llosás*. You will need another half hour to go up to the hill (2,670 m. high) and then you can go down again by following the route of the *Ibón de Llosás*.
